Project Overview

Project Title:	AI-Based Smart Attendance System
Project Timeline:	2025-09-01 to 2026-01-31
Innovation Summary:	A face recognition-based system that automates student attendance and integrates with the LMS.
Commercialization Plan:	To license the solution to universities and colleges with centralized reporting.
Market Potential:	Target educational institutions nationwide with increasing demand for automation.
Expected Benefits:	Saves administrative time, increases attendance accuracy, and reduces fraud.
